

**PP3 REPORT TO BGPC 21<sup>ST</sup> JANUARY 202**

1 Future financing of work.

2 Work proposed attached with finances query.

3 Contact with Mike Brookes over dangerous bridge on LN 30 and a request for site inspection of problem section on Lingen Loop.

Popular with locals and many users of Lingen Loop.

Wood chips placed previously are now mud. Walkway proposed but expensive. Limited area adds to problem.

4 I attended a County ROW officers meeting at Balfours on Thorne Estate Hereford in October 2019.

A survey asks me to inform them does BGPC wish to stay in the PP3 scheme?

Will BGPC be providing funding?

A survey was attached which I will complete upon a decision for BGPC. To get any help from them perhaps it would be good to stay in the scheme.

The speakers on the day seemed inflexible on many numerous, everyday practical problem with gates and detours and crops.

That was the second such event and I will not attend again.

A list of bridges needing replacement was handed in.

Jenny Gurney informed me that one has been done on Abbey Court Farm.
